1、 Advantages and Disadvantages of Formal Education

The advantages of formal education are self-evident. First, the students have regular classes, and they meet teachers and classmates every day. Therefore, when they have difficulty in learning, they can discuss with their classmates or turn to their teachers for help. Second, the students can attend different activities to enrich their life, which helps students develop their friendship. Third, the students can borrow books from the library. However, the disadvantages of formal education are undeniable. First, the cost of the formal education is high. Second the formal education is not as flexible as open education. Third, the students don't have much choice because everything is set beforehand.

The formal education's advantages and disadvantages are shown clearly to us. I think we should make good use of advantages. On the whole, the advantages of formal education outweigh the disadvantages of formal education.

【译文】正规教育的好处不言而喻。首先, 学生有规律的上课, 每天都会见到老师和同学。因此, 当他们学习有困难时, 可以与同学讨论或向老师求助。其次, 学生可以参加不同的活动来丰富他们的生活, 这有助于学生发展友谊。第三, 学生可以从图书馆借书。然而, 正规教育的弊端是不可否认的。首先, 正规教育的成本很高。其次, 正规教育不如开放教育灵活。第三, 学生没有太多选择, 因为一切都是事先设定好的。

正规教育的优点和缺点都清楚地显示在我们面前。我认为我们应该善用优势。总体而言, 正规教育的优势大于正规教育的劣势。

My parents given me the most influence in my life. I believe I have the best parents in the world.

My parents are always there when I am at the bottom of my game, and they always back me up on the decisions I make even though I don't chose the wisest path to take. They love me and they will always be my hero.

When I was three years old, they were told that I had a learning disability. People said that I had problems learning and comprehending things; that I was slow. My parents rejected that diagnosis and said that all I needed was some motivation. They motivated me to work to the best of my ability. Now my ability is much better than before.

With out my parents, I would have been treated like I was slow for the rest of my life. With out my parents' motivation, I wouldn't be where I am now academically. I have the best parents in the world.

Low-carbon life is of great importance to everyone. For one thing, it can protect the environment to a great extent. For another, it can save the limited natural resources and energy, and will leave a better world for our offsprings. Last but not the least, it is a healthy lifestyle and will help mould a harmonious social atmosphere.

Therefore, how to create a low-carbon life is necessary for us to consider. To begin with, we should save energy, such as the electricity, water and domestic gas, and, when we go out, we can walk or ride bikes instead of driving cars. Third, we should not use plastic bags which are hard to breakdown. If so, we can live a low-carbon life.

因此, 我们应考虑如何以低碳的方式生活。首先, 我们应该节约能源, 如电力、水和家用天然气。第二, 我们出门时可以步行或骑自行车来代替开车。第三, 我们拒绝使用难以分解的塑料袋。如果做到这些, 那我们就过上了低碳生活。

Currently, The population of the planet grew rapidly while resources become less and less. But people are not strong awareness of resource conservation. Waste resources can be seen in everywhere.

A case in point is our school, many high-grade students throw the books of which are not make full use into the garbage heap, rather than recycling. This is also conducive to increase friendship, to develop the habit of helping others.

Let us all act it. Protection of our resources to achieve sustainable development. Our planet will become more suitable for human habitation.

如今, 地球上的人口增长很快, 而资源却越来越少。但是人们节约资源的意识并不强。浪费资源的现象到处可见。

在我们学校就是如此, 许多高年级的学生把没写完的课本都丢到垃圾堆里, 而不是回收再利用。现在, 我提倡高年级同学把可以用的课本留给低年级学生、提高节约资源的意识。这也有利于增进友谊, 养成助人为乐的习惯。希望大家支持!

让我们大家都行动起来吧。保护我们的资源 实现可持续发展 我们的地球将变的更适合人类居住。

My dreams

I dream of moving into a big house with my family in my thirties. My wife and I have three children, which makes the 90-square-metered apartment we live now crowded. There are only two bedroom with one bathroom. You can image how inconvenient it is.

We decide to change the current situation. We would like to find an attached or semi-attached house for the family. It should have at least four bedroom, so that each of our kids owns his or her own room. We also long for a small garden, where we can enjoy BBQ at weekend. Now I carry out more tasks at my company while my wife starts to teach kids English in the neighborhood. We believe that we will soon earn enough for our dreamed house.

My dream

To acquire a job that is creative has been my dream for many years. For I believe this kind of job is worthiest of devotion.

A creative job is one that respects the ingenuity of man and places human beings above machines. As science and technology progress, computers and robots are used more and more widely. It makes me and many other people doubt the necessity of man's existence. Yet a creative job, such as teaching, writing, scientific research, and management, which require more wisdom and imagination, may well release me from such vexation (烦恼) .

In order to make my dream come true, I am studying undergraduate courses in business administration now in the Open University. I hope that in 5 years, I will have a job in a company as a manager, and in ten years, I will have a company of my own.

I will study hard and work hard to make my dream come true.

创造性的工作是尊重人的创造力, 将人置于机器之上的工作。随着科学技术的进步, 计算机和机器人得到了越来越广泛的应用。它使我和许多其他人怀疑人类存在的必要性。然而, 一项创造性的工作, 如教学、写作、科研和管理, 需要更多的智慧和想象力, 可能会使我从这种烦恼中解脱出来。

为了实现我的梦想, 我现在在开放大学学习工商管理的本科课程。我希望在 5 年内, 我将在一家公司当经理。在 10 年内, 我希望我将有一家自己的公司。我会努力学习, 努力工作, 让我的梦想成真。
